Lahore, PK

## Summary

---

With over 5+ years of experience as a seasoned designer and developer, I've collaborated with more than 10 companies, specializing in UI/UX design, front-end development and various platforms including Shopify, Wix, Squarespace, WordPress, and Elementor Pro.

My expertise lies in UI&UX, Web & App designing, WordPress, and Shopify development. Whether it's cutting-edge technologies or tailored project needs, I possess the skills and knowledge to deliver exceptional results.

## Work Experience

---

### UI/UX Designing

(2022-Now)

in the **The Startupleads**

As a UI/UX designer, I've been crafting websites and apps that look great and are easy to use at The Startupleads.

### Front-end development

(2020-2022)

in the **IBEX STUDIO**

As a Front End Developer, I crafted responsive web interfaces using HTML5, CSS3, and JavaScript.

### Graphic Design

(2017-2020)

in the **Future Plus**

At Future Plus, as a graphic designer I've designed social media posts, banners, google ads, thumbnails etc.

## My Education

---

### BFA Graphic Designing

(2021-2025)

degree by **University of Education**

Integration of typography, imagery, and design principles across various media platforms.

### UI/UX Design

(2020)

course by **Udemy**

User Experience (UX) principles to your website designs, code a variety of sites, and increase sales.

### Figma advanced training

(2019)

course by **Skill Share**

From concept to a highly polished finish, mastered the fundamental principles of UI/UX Design using Figma.
